

## Heating Unit – PRO Series

Powerful 3-phase heating unit for professional, heavy-duty use. The tube is composed of nickel alloy INCOLOY and is mounted on a G 1½" brass threaded cap. This superalloy is particularly resistant to corrosion and is suitable for use in areas with poor water quality. Features a cast-pressed aluminum box with stainless-steel cable gland and waterproof electric connections, providing protection against UV radiation, overheating and breakage, making it suitable for outdoor use. The unit includes a 3-phase thermostat and a 3-phase safety cut-out.

PRODUCT CODE	kW – 3x400 V	Length (mm)
