

## Heating Unit – RL Series

Single phase immersion heater for floor standing boilers on a G 1½” or G 1¼” brass flange. A robust and waterproof construction, composed of high-grade stainless steel. The heating unit features a bi-polar thermostat with safety cut-out, a protective transparent polyamide cover, an indicative bulb, and a cable gland. It is suitable for outdoor use (IP67) and is resistant to rain and UV radiation.

Alloys of stainless steel used: AISI 316L (EN 1.4404), ALLOY 800 (EN 1.4876), ALLOY 825 (EN 2.4858). Power ranges from 1 to 4kW – 230V~.

**WARNING:** *The product must be used in conjunction with a magnesium anode to ensure cathodic protection. Alternatively, product failure is expected shortly after its installation.*
